EDMONTON. ALBERTA TUESDAY, AUGUST 30TH, 1904

LIAO YANG

Is Centre of Interest at Present

GREAT BATTLE MAY HAVE BEEN FOUGHT.

Japs Have Landed Fifty Heavy Naval Guns to Pour Death and Destruction into Port Arthur

GARRISON WILL MAKE A DESPERATE SORTIE.

London, August 29.—The Daily Mail's Kobe correspondent in a despatch dated Saturday last says: "Following is the position of Port Arthur: The Japanese have captured all the outlying fortifications, but the Russians still hold the citadel on Anteshan, Golden Hill fort and the forts on Tiger's Tail and the Laiti mountain. The Japanese are in possession of the parade ground and barracks under the Anteshan fort on the outskirts. The fall of Port Arthur is believed to be imminent. It is believed that the garrison will make a desperate sortie before the end comes."

FIGHTING AROUND ANSHANG.

St. Petersburg, August 29.—The Emperor has received the following telegram from Lieut. General Sakharoff, dated, August 28th: "Yesterday the Russians retired slowly on Anshang. The Japanese bombarded the Russian fortified positions, and the Japanese were compelled to move their bivouacs from Tamama to Bucezai. The hottest fighting occurred on the Russian left flank where the Russian loss was twenty. The Japanese had five divisions. In the southeast the Russians repulsed all the Japanese attacks, while our troops on the left flank assumed the offensive and drove the Japanese towards Tonsuence and Tasannia. Our losses were forty."

JAPANESE GAIN SOME ADVANTAGE.

The Lamba regiment held one position from one o'clock in the morning until four o'clock in the afternoon, when the column was wounded. The regiment was then driven out of the position by the fire of the Japanese guns from the heights. Six guns were abandoned.

On August 27th, the Japanese did not take the offensive to any great extent. The Russians retired on their new positions, while the Japanese advanced to Taempin by way of Yadiaka.

RUSSIAN CASUALTIES.

St. Petersburg, August 29.—Russian casualties are placed at 1450 in the report of the Russian general relative to the fighting around Liao Yang yesterday, while the Japanese sustained serious losses and report the loss of twenty-four guns.

HAS KUROKI CUT THE RAILROAD?

Tokio, August 29.—The general staff maintained silence throughout the day concerning the fighting in the vicinity of Liao Yang. It is reported that General Kuroki has seized and cut the railroad south of Mukden, separating the Russian force and cutting Liao Yang off from the direct line of retreat. Confirmation of the report cannot be obtained.

Harbin, Manchuria, August 29.—The Russian losses in the fighting of August 25th and 26th, east and south of Liao Yang, were 3,000 killed or wounded. The great majority of the casualties were sustained at Anping. The withdrawal of the Russians from both fronts at Anshang and from the east position were made simultaneously for strategic reasons.

Liao Yang, August 29.—The Russian army has effected its retirement with transports and artillery on Liao Yang, and is now in a position awaiting the advancing Japanese. The progress of the latter has been rapid and determined, sparing of no sacrifice. In the attack on the Sialdeny position one Japanese battalion lost all of its officers. The retirement of the Russian transport of four corps yesterday evening across the plain, while the artillery and troops in the rear held off the Japanese, afforded a magnificent spectacle. All along the extended lines there was an incessant roar of batteries, the Russians working their guns with great coolness and not retiring until the transport was in safety. Gen. Rantkowsky was among the killed. The Japanese artillery resumed the battle at six o'clock this morning, the point of pressure again being the Russian south front. The Japanese infantry is now advancing to the attack, the regiments being deployed in open order.

NEWS FROM LIAO YANG EAGERLY LOOKED FOR.

St. Petersburg, August 30.—Even up to late last night the greatest anxiety prevails regarding the actual situation at Liao Yang. There is intense anxiety for definite news from the front, but the authorities are frankly ignorant as to whether the long expected decisive attack will be fought at Liao Yang or further north. It is possible that a great battle is even now proceeding and there are many indications that such is the case. If this is so, the fate of this year's campaign may be settled within 48 hours. At the same time the opinion is almost equally divided, many believing that General Kuropatkin will not make a determined stand and that the Japanese will crack the shell, only to find that the bird has flown.

WILL TRAIN FIFTY HEAVY GUNS ON PORT ARTHUR.

Chefoo, August 30.—It is reported that Admiral Togo has landed fifty heavy guns from the fleet at Port Arthur to be used in the bombardment of the city by the land forces.

RUSSIAN ARMY STILL RETREATING.

Hsietown, (eleven miles east of Liao Yang) August 30.—The Russian army from Anping this afternoon bivouacked upon the Liao Yang plain after fighting a rearguard action for ten miles from Anping, bringing their wounded and burying their dead on the way. Six guns are reported lost, but a number of Japanese captured showed signs of great fatigue and hardships.

No Rust or Frost at Brandon

Sun, August 22nd:
Mr. D. Loney at Kemnay, was in the city today and brought with him some splendid samples of wheat gathered from his own farm and from the farm of Mr. John Kirkpatrick. The grain is almost ready for the binder, and has not the slightest sign of rust. Mr. Loney stated that he has travelled all over the municipality of Whithead, during the last few days, and claims there is no rust whatever in that district.

Cutting will be general in the Kemnay district at the end of this week and the crops are very heavy.

Some fears were expressed last night that frost would probably follow the rain of yesterday. The early part of the night was very clear and the atmosphere chilly, but at midnight the sky became very cloudy and it became warmer and this morning the thermometer registered about 20 degrees above freezing. The indications are now, with the rainy period over, that there will be good weather for a time.

Harvest at Regina

The West, August 24th:

The season of the year which is watched with close interest by everybody in the North-West has arrived. In the great wheat-raising districts immense damage may be done by a storm of hail or a night of frost. These are greatly dreaded at this season of the year and both have been unwelcome visitors. During the rain storm on Thursday last some hail fell, but so far no damage has been reported in this locality.

The damp weather continued for a couple of days and on Saturday night the temperature lowered to freezing in some localities. Right in the city and C.P.R. gardens no evidence of frost can be detected. In one or two gardens however the potatoe tops have been nipped. Speaking to farmers from different localities we learn that there has been slight frosts in most of the low spots. It is the general opinion however that the frost was not severe enough to damage the grain except in a few spots.

Wheat cutting is now general in many districts, and will be general all over Assiniboia at the end of this week or the beginning of next, should the weather be favorable. The farmers claim that all that is now required is sunshine.

What Russia Loses In Port Arthur's Fall

The news of the fall of Port Arthur is hourly expected. The whole fortress is in flames. Everything points to an immediate surrender.

Writing from Mukden a correspondent of the Philadelphia Inquirer says:

At the time these pages are being written the fate of the great Russian fortress of Port Arthur hangs in the balance. At the time they are published Port Arthur may be relieved or it may have fallen.

If it is relieved the Japanese will have failed in their great object in the war and might as well endeavor to make terms for themselves as soon as possible; but if they have succeeded it is almost impossible to overestimate the gravity of the blow Russia would receive by the fall of Port Arthur.

The hundreds of millions of roubles sunk in the magnificent wharves and splendidly built town of Dalny, and in the dredging, building and fortification of Port Arthur will have been lost; Russia will be shut out forever from the Pacific, for the seizure of Saghalien, will enable the Japanese to encircle Vladivostok with a girdle of forts extending from Masampo to Cape Elizabeth; and the great Trans-Siberian railway will have no ice-free terminus in the far east and will never have any chance of paying its current expenses, let alone being a profitable investment, unless the Russians agree to the most humiliating terms of peace.

These terms would comprise in the first place the construction, by the Japanese of a branch line from Korea to Liao Yang—a concession which would have the effect, of placing, after a time, all the carrying trade between America and Siberia in the hands of the Japanese and of making the Japanese port of Fusan the real terminus of the great Trans-Siberian railroad, and in the second place, the perpetual limitation of the number of Russian vessels in Chinese waters to perhaps not more than one or two small gunboats.

These humiliations would be stupendous, but they would be only the prelude to others, more stupendous still, which would follow the awakening of China by the roar of Japanese cannon. Russia's prestige in Asia would be forever shattered. England would lose no time in grabbing Tibet, and the Sikh and Gurkha would laugh at the idea of India being invaded by the men who had been thrashed by the little Jap. Russia's expansion would be forever stopped.

If I were a Russian, the mere thought of how much depends on Port Arthur would be almost unbearable. Even to one who is, like most inquirer readers, absolutely impartial, the surrender must seem one of the most tremendous disasters which a European nation could possibly meet with, as well as one of the most important turning points in the history of the world.

Then the scenes by which this surrender—if there be a surrender—will probably be preceded must strike the most sluggish imagination.

If they find themselves without ammunition, without hope of relief and exposed to the fire of the Japanese fleet and of some of their own captured batteries the Russians will undoubtedly behave as they did at Moscow in 1812—they will blow up their dock, burn every house and barrack in the town and finally blow up all their remaining warships.

By that time the entrance to the harbor at Port Arthur will probably have been blocked by the Japanese, and the warships will have to be blown up in the small inner harbor, in spite of the loss of life ashore which is almost sure to follow.

This blowing up of a whole fleet will be the most awful spectacle that warfare has so far exhibited; indeed imagination staggers at the thought of it. And it is not at all likely to be followed by a general surrender, for so far there have been no surrenders in this war.

A few days ago several sotnias of Cossacks exterminated a number of Japanese squadrons at Wafangou, and in no single instance during the fierce hand to hand struggle was quarter asked or given.

Hundreds of proofs could be given to show that this is a war in which the words quarter and surrender will be practically unknown, and it would not surprise me if the final act of the tragedy at Port Arthur (supposing that the Russians lost that fortress) were a bloody and desperate hand to hand encounter in the narrow streets around the post office and the narrow premises of the Novi Krii.

Owing to the absolute necessity of Russia continuing to hold Port Arthur all the resources of the Russian empire will be utilized in order to prevent the capture of that fortress, and as the Japanese are equally determined to take it in order to wipe out the disgrace of its retrocession in 1895, the southern extremity of Liao Tung peninsula is likely to see the bloodiest and most obstinate fighting of modern times.

Ross Bros.

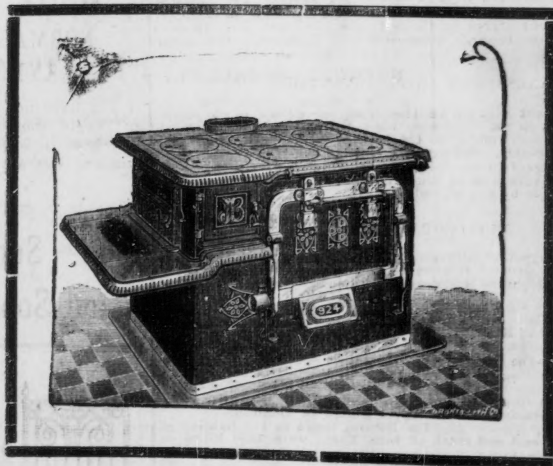

Ltd.

Just a Few Words About Stoves and Ranges

ROSS BROS., Limited would like to call the attention of the public in general to their stock of Steel and Cast Ranges. These Ranges are selected from among the best Makers on the Continent and every stove they sell is fully

Guaranteed

Further than this, there is no Stove or Range made that will not in time require to have some parts renewed no matter what dealers may say to the contrary and when such parts are to be renewed you would like to get them without any unnecessary delay or trouble. If you buy from your local dealers you will have their best attention not only in respect to any guarantee they may give but also in any parts you may want in the future.

Now Ross Bros., Limited are close in touch with what is wanted in this country and their stock of stoves and ranges are not only up-to-date but are selected with a special view to what is most needed here. Their prices are much below that of some prices being asked for other Steel Ranges and you will know where to find them what you want special parts when your stove has in time become an old one.

AS TO THE TARIFF

During the elections of 1900 the electors of the west were exhorted to vote against the Liberal government because it had not sufficiently reduced the tariff. This course would only be sensible if a vote against the Liberal government meant a vote for further and greater reductions. Just how the party of the opposition stands on the question of tariff may be gathered from the report of a speech recently made in Calgary by Rufus Pops, M.P., and reported in the Herald as follows:

"The speaker had been warned by free traders that he had better not say too much about protection out west; that the people stood for free trade. He did not believe it. The example afforded by the nation to the south was sufficient to indicate that Canada would make no mistake by applying the same ideas towards her industrial development. A protective tariff had made the republic prosperous from ocean to ocean. The western states had profited by the system as well as the east. It was not a question of the upbuilding of this or that part of the Dominion, but a great national policy that would make the whole country prosperous from ocean to ocean."

"It was folly to talk of building up one section and tearing down another. The broad Canadian principle of give and take was the only one that could be the guide to national wealth and general prosperity. We would ask the west to take the manufactured products of the eastern provinces and in return supply the raw materials. It was the spirit of reciprocity in the broader sense. The different states had grown tremendously wealthy together. Why would the same policy not make this half of the hemisphere equal in resources? This is a definite declaration for the application of the Dingley tariff to Canada, and having been made when and where it was, may be accepted as the fixed policy of the party of the opposition."

HERE'S RICHNESS

The Calgary Herald in discussing the political situation, gives out the following as its view of Western political feeling:

"It is the indignant cry of the virile west that the government fears most of all. Out of the west the east expects powerful resistance to arising. The spirit of the west is impregnated with a pronounced regard for honest business methods, progressive effort in all things pertaining to the development of the vast resources of the region, and a discriminating sense of responsibility. The best class of the Dominion—business men who are not afraid to risk their all in a struggle with new conditions—regard with patience the intrigue of corrupt partisans than does the more conservative element of the east. It is this vigorous factor in the western half of the Dominion that promises to prove a thorn in the side of the government."

The virile, honest west is to take the lead of the effete, tricky east in condemning a government and policy, under which the west has emerged from a condition of stagnation and become the strongest force in the progress of the country at large. The Herald hopes that the people will forget the causes of stagnation under which the west suffered for so many years under the policy and administration of its friends—the very policy and administration which is still their pride. Give the west a renewal of the policy and administration which it had from 1878 to 1896, and it would soon lose character for either virility or honesty."

ASTLEYVILLE

Mr. and Mrs. Engel and son, of Edmonton, returned to the city today after a two weeks' visit to Mr. and Mrs. Astley.

Mr. Bush, Mr. H. Bush and others, from Edmonton are camping at Birch

lake here, where they are having a fine time duck shooting. Ducks are very plentiful this year.

Crops in this locality are looking excellent and so far have escaped the hail. Some fields of wheat present a perfect picture.

A slight hailstorm passed south and west of here on Saturday last and any damage done is reported as very slight.

A Conservative association has been formed in this locality.

Members of the Bredin & Cornwall company passed through here on Wednesday last on their way north to Peace river.

Mrs. Gibbons, Mr. R. Gibbons, Miss Lewis and others of our young people, are having a pleasant time at the Vermillion picking berries.

Rev. and Mrs. Forbes returned last week from the Landing, where they had been enjoying a short holiday. Rev. Mr. Forbes assisted Rev. Hodgins at his Sunday evening service in the schoolhouse here, when a very appreciative audience listened to a very profitable discourse from each of these gentlemen, the schoolhouse being well filled.

August 27th, 1904.

EDISON

Bulletin Correspondence.

Most of the farmers are harvesting their barley and wheat at present.

Mr. William, who arrived from Iceland a short while ago, was very much pleased with the country and started for Edmonton Saturday morning in the hopes of locating four homesteads for himself, two sons and one son-in-law.

Last Friday evening a meeting was held at Mr. T. R. Williams' home for the purpose of selecting a committee on a Sunday school picnic to be held on September 1st.

Mr. Robert King arrived from Edmonton on Saturday.

Mr. McDermid, homestead inspector, was in this vicinity a few days ago.

Last Friday evening a week ago a very pleasant surprise dance was given at the home of Mr. Chas. Edgson.

Quite a number of homesteaders have been in looking for land in the last week.

Messrs. Maloney and Harrison sold one of their teams, wagon and harness Thursday to Mr. Milligan.

Mr. Gus Woodcock has been laid up for the last week as the result of an accident caused by a runaway. However, he is better now, and we hope soon to see him out again.

Mr. Cox, missionary from Independence was here about a week ago.

Miss L. H. Bronson starts out for Edmonton on Saturday to see her husband, who is quite ill at that place.

NORQUAY-McCAULEY

A most pleasant event took place at the home of Mr. Mat McCauley, ex-M.L.A., at Toronto, on Wednesday last when his daughter, Julia Alberta, was married to Mr. Alexander Norquay, of the lands titles office, Edmonton, son of late Hon. John Norquay, Premier of Manitoba. Only the immediate relatives of the contracting parties were present. Miss May McCauley, of Edmonton, sister of the bride, acted as bridesmaid, while Mr. Andrew Norquay, of Winnipeg, supported the groom. His brother, Rev. Mr. Addison, of Logan, conducted the marriage ceremony. Afterwards the gathering sat down to a splendid wedding supper, when the usual toasts were drunk and happy speeches made. A most pleasant time was spent.

The happy couple arrived in Edmonton on Friday and have taken up their residence on Eighth street, corner of Victoria avenue.

Among the numerous presents given to the newly-married couple are a beautiful silver tea service and a handsome secretary, given by the lands and registry office respectively, a strong testimony to the popularity of the young people among those with whom they have worked.

Government Stands Firm

London, Aug. 26th.—Pamier Balfour replying to a deputation of East India traders said the Russian Government was not sure that the British had received orders respecting the non-interference with neutral merchantmen and had asked British assistance to locate the warship. In accordance two cruisers have been detached from the Cape of Good Hope squadron to carry out these wishes. This should close the incident. Britain had not received the aid from the stand that Russia had no right to sink or seize British ships in Japanese or Chinese waters.

SPORTS

LACROSSE MATCHES

Three lacrosse matches have been arranged for by the local club.

On Friday evening of this week Edmonton and Strathcona will play in Red Deer. On Monday morning next, Edmonton will play the return match with Strathcona in Strathcona on Friday evening, Sept. 2nd.

These are more to be first class games.

It was formerly intended to go to Red Deer Monday morning, play there in the evening, and return on Tuesday. This arrangement was apt to keep a number of the players at home, and it has now been decided to catch a freight, play in Red Deer Monday morning, and return Monday evening.

A meeting of the players is called for this evening after practice, to settle business in connection with the three matches in sight.

A full turn out of players is called for to-night. Since the Red Deer match the local players have turned out to practice pretty poorly. Red Deer may have a surprise in store for them on Monday next, Labor Day. Good hard practice is required.

The lacrosse committee requests the following players to turn out to practice this evening: Watkins, Thompson, Nott, Brandt, Maloney, Thom, Morris, Maveety, Milne, Banford, Harper, Pearson, A. McKinnon, Jardine, Kemp, Morden, Humeston, D. McKinnon, C. McDonald, Price, Leggett, A. Johnston, R. Johnston, C. Banford, Aylmer, Forrest, Cross, Sawie, McCrimmon and any others who may play the game.

Wallbridge—Campbell

The marriage of Miss Mabel L., third daughter of Mr. Archibald Campbell, M. P., to Mr. James E. Wallbridge, barrister of Edmonton, son of Mr. George Wallbridge, Belleville, took place quietly on Saturday morning at the residence of the bride's parents, Annette street, Toronto junction. Rev. G. C. Pidgeon conducted the ceremony. The bride, who was given away by her father, wore white crepe de soie, with berthe and trimmings of point lace, and carried bridal roses and lily of the valley. The two bridesmaids, her sister, Miss

Helen Campbell, and the groom's sister, Miss Helen Wallbridge, wore white crepe de chene and carried pink roses. Dr. W. D. Ferris, of Edmonton, was the groomsman, and the bride's brother, Mr. Douglas Campbell, acted as usher. Mr. and Mrs. Wallbridge have left for a honeymoon trip to Banff before taking up their residence in Edmonton.

SPORTSMEN

The shooting season is on and we wish to call your attention to our complete stock of shot guns and shells. Guns from \$5.00 upward. Kynoch, Normal and Amberite shells and the well known Grand Prix shells in Smokeless and Black Powders. Your orders will receive prompt attention.

TELEGRAPHIC

EXPLORATIONS

IN HUDSON'S BAY

Steamer Arctic will leave shortly for the Far North. Transcontinental Commission.

Bulletin Special Dispatch.

Ottawa, August 29.—The steamer Arctic, under Captain Bernier, is expected to leave Quebec for the far north on September 10th. Operations for the year will be confined to Hudson Bay, Hudson straits, Davis straits and Eaffin Bay. Supplies for three years are on board.

The first meeting of the Transcontinental railway construction commission was held here today.

FATAL ACCIDENT

AT GILBERT STATION

Italian track laborer instantly killed. Struck by heavy plank.

Bulletin Special Dispatch.

Winnipeg, August 29.—A fatal accident took place near Gilbert station fifty miles northeast of Rat Portage. Section men working at the track had lifted a board on the rails when the train approached. An attempt was made to remove the board when the engine struck it and threw it against Grotzmann Reina, an Italian, striking him on the head and killing him instantly. The train brought the body to Rat Portage. The coroner, A. P. John, considered an inquest unnecessary.

EARL GRAY

NEW GOVERNOR GENERAL

Rumor to this effect very generally believed. An experienced diplomat.

Bulletin Special Dispatch.

London, August 30.—Earl Gray has been selected to succeed Lord Minto as Governor-General of Canada. The appointment will be officially announced very soon.

This information comes from one in very close touch with the government. Earl Gray is now in the United States. He is known as a capable man, popular with all classes, and experienced in diplomatic and business affairs.

NO RUST HERE

A. E. McKinstry, of the Chicago end of the International Harvester Co., who has been driving through the Edmonton district for some days, makes for the ease to-day. He visited the Stoney Plain, Clover Bar, Agrioola and Fort Saskatchewan and home districts. After making careful examination of wheat fields in all these settlements, he reports no rust nor any sign of rust.

Binders are at work on almost every farm cutting wheat, barley and oats. Some, he thinks, are cutting wheat while a little green. Some fields of wheat, barley and oats are still backward, but there is every indication of a good crop and a good season. The heads are well filled and the grain is plump. The bit grip, which was reported light, because of poor seed, seems to have pulled up a great deal and now there is little to complain of. There has been no damage by frost or other cause in the districts visited. Mr. McKinstry spent several weeks in Manitoba before coming to Edmonton, and considers the crop here will compare very favorably with that of Manitoba.

A. J. Walker, of the International Harvester Co., returned last night from a visit to Vegreville, Whitford, Stettin and Beaver Lake. He also reports

NEWS OF THE WORLD

IN BRIEF PARAGRAPHS

Condensed Dispatches Dealing With the Day's Most Important Happenings.

Winnipeg, August 30th.

The Archbishop of Canterbury stays in Quebec till tomorrow.

Kruger's buried treasure, amounting to \$1,250,000, has been found.

J. T. Gordon states that conditions in the cattle export trade are unsatisfactory.

C. P. R. profits for July show a betterment of \$131,125 over the same month in 1903.

One hundred people were rendered homeless by a fire in the Philippines.

Lord Dundonald is reported to have been appointed as Governor and Commander in Chief in Ceylon.

Russia will take no action as requested by the United States for the recognition of American passports.

A Vancouver stone mason wandered away and was without food for a week. He died from the exposure.

President Shaughnessy, of the C. P. R. asserts that no Canadian works can produce steel rails economically.

The Grand Trunk Pacific officials left Vancouver for the north in search of an ocean terminus for the new transcontinental line.

A COMMISSION

TO ADJUST DIFFERENCES

Between the Grand Trunk and the Intercolonial Railways has been appointed.

Bulletin Special Dispatch.

Montreal, August 30th.—The Commission to arbitrate the differences between the Grand Trunk Railway Company and the Intercolonial Railway, held its preliminary sitting to-day.

The arbitrators are Justice Kilbarn, of the Supreme Court, Ottawa; Justice Dandridge, of Montreal; and G. G. Shepley, K.C., of Toronto. Trouble between the companies arose out of the transfer of the east-bound freight, as well as conditions relating to Montreal terminals and running rights over the Grand Trunk from Chandler to Servus.

dere at work everywhere, and no sign of rust. On the whole the crop in the eastern district is rather earlier than this about Edmonton, and correspondingly lighter, owing to dryer weather. There is a trace of frost in spots, but it has not been sufficiently general to do any harm. There has been no hail in the region visited.

John A. C. Cameron, winter inspector, returned last night from a visit to Ponoka, Wetaskwin and outlying districts. Harvest is on in all the localities visited. The crops are good and the sample is very good. No sign of rust or damage by frost is reported in the localities visited.

EDMONTON RIFLE ASSOCIATION

The range was open all day on the Civic holiday and a number availed themselves of this opportunity to do their class firing.

The possible in this annual test required by the department is 245 points.

S. S. Brown put on the very good score of 202 points or 82 1-2 per cent. of the possible.

Captain Spratt put on 191 points, making a very good second.

On the same day S.S. Brown put on the very creditable score of 92 points at the usual 200, 500 and 600 yard ranges.

On Saturday, in spite of the threatening appearance of the weather, a fair number turned out for practice and to finish class firing, which had been begun on the Civic Holiday.

The following were the best scores of the regular ranges.

200 500 600 Tl.
W. L. Gibbard 29 30 25-84
S. S. Brown 29 29 21-79
H. B. Spratt 30 27 21-78

Class firing will be continued for some time and it is expected that all members, past or present, will avail themselves of this opportunity of practice, as required by the department, as ammunition is supplied free for this purpose and the association is expected to have every available man tested and his score sent in to the department.

The competition for the medals is becoming keener and there is considerable

able interest being taken in the various contests. As the matches are to take place on the 20th, 21st, and 22nd of September, the prize list will be compiled this week by a joint committee of the Edmonton and Strathcona associations and will be published promptly.

Stony Plain Crops

C. W. Sutter and Rudolph Bach returned yesterday from taking a drive through the Spruce Grove, Stony Plain and Glory Hills districts. Everywhere they went they found the crops in splendid shape. In each of the districts visited some barley, wheat and oats had been cut. A large proportion of the barley is in-stock and wheat cutting is general. Oats all over the different districts were rapidly getting into shape for the binder, and a large quantity will be cut this week. The further west they travelled, the riper the grain appeared. For a distance of 45 miles west, as far as the party went, no damage from frost was observed.

On the Larue farm, Stony Plain, is to be seen one of the finest fields of wheat in the Territories. It is on new land and is free from weeds. There are sixty acres of it in a solid block, and it is estimated it will go fifty bushels to the acre. It is of the Red Fyfe variety. The heads are long and the sample splendid. He began cutting yesterday morning.

Formal Introduction Of The Famous

FIT-REFORM

CLOTHES

At last Edmonton is to have "FIT-REFORM" CLOTHES. So great has grown the demand for them that we have decided to put in a complete stock of these famous Suits and Overcoats.

To the men who know "FIT-REFORM" Clothes, it is unnecessary to speak. It is to the men who are unacquainted with this new era tailoring that "FIT-REFORM" will be a revelation.

It gives them the richest, handsomest fabrics imported from England, Scotland and Ireland. It gives a selection of hundreds of the season's newest, choicest fabrics and colors. It gives men an absolutely perfect fit, for there are sizes from the small, thin man and stout small man, to the tall, thin man and extra stout large man---with every variation between. It gives men clothes designed by the finest tailors in Canada, and finished in absolutely faultless style. It gives men Suits and Trousers and Overcoats, that cannot be surpassed by any tailor in the Dominion---at just HALF what the merchant tailors charge.

We want you to Come.

We want you to see just what "FIT-REFORM" Clothes are--tell you how and why they are better than you thought clothes could be.

J. H. Morris & Co.

Edmonton, N.W.T.

A Shower of Frogs

Regina West: A phenomenon of an unusual character was witnessed by several citizens. The gentlemen in question were driving in the country about four miles north of the city when a very heavy shower of rain came on. Their surprise may be imagined to see the rain accompanied by a shower of small frogs. They claim that they could make no mistake as the frogs descended into the rig.

The Rust Scare

North-West Farmer:

Rust has always done more or less harm to our crops, usually proving most injurious to late crops. This season it assumes a still graver aspect. As has already been rather widely known, a much more malignant variety of this pestilence has made its appearance in the states to the south of us and according to pretty reliable testimony, has practically ruined the wheat crop of considerable districts. One of the latest crop reporters in the North responsible for much of the excitement caused by these reports and his personally visited the places where rust prevails.

He has also visited points on this side of the line where rust is reported, and has found indications which prove to him that the same form of rust has taken hold of here. Where the grain has got past the dough stage it will take comparatively little harm, but on later crops, unless modified by climatic conditions, which is rather doubtful, the effect of this rust may be quite as harmful as it has already proved to our neighbours.

Wasting Grain

Farmer's Advocate.

The waste of grain on the prairie farms, especially during harvest and threshing time, is appalling to many an Eastern farmer visitor, and is no credit to the farmers of this country.

The first waste is by allowing the grain to get too ripe before cutting, and by leaving sheaves lying on the ground for long periods.

A great deal of grain is lost on the ground between the stock and the stack or machine, owing to the fact that the wagon racks are open and much grain falls between the boards, and if the pitcher and loader are careless, and are not particular about placing the first few stocks on the wagon, the grain will be rattled out on the ground like shot. All wagon racks should have a tight bottom and sides when used for drawing in grain. A little attention paid at the time of threshing will pay. Many a wagon supplied for threshing out of the stock is open and the grain is wasted.

Then, too, when the drawing starts, it is important to see that each man does his part. In every gang there seems to be a fellow inclined to slink, and he has to be carefully but firmly handled to get a fair share of work out of him. The hanging back of one man disarranges the work, and should be looked out for and promptly stopped. The pitchers should at all times, more especially when throwing the sheaves to build up the lower portion of the load, endeavor to so throw the sheaves that such may easily be placed in position by the loader. It requires no extra effort by the pitcher and certainly makes things easier for the loader, who should remember when it comes to his turn to throw the load off at the stack or machine. Where a farmer is short-handed, the basket rack, (the ordinary rack enclosed by rope and 2x4 uprights, or inch boards, and uprights) is useful, as it permits part of a load being put on without a man on the load, in cases where only three men are available, or three men and a small boy to do the driving. Work to count must go with a swing and no hindrances or delays. A ten-hour day, when everything is kept moving the whole time, is better than a fourteen hour period made up of stops and spurts. Drawing in on the soil we have is often heavy work, so do not overload, and use wide tires on your wagons, and keep the wagon axles well greased, so as to make it easy for your horses. If possible, on warm days, stand them with their heads to meet the breeze.

FRATERNAL

CANADIAN ORDER OF FORESTERS
Court Edmonton of the above Order will meet in Unity Hall, Sandison Bldg., Jasper Avenue, next Wednesday, August 3rd, at 8 p.m. Any who wish to join are requested to apply to Bro. J. G. Montgomery, Chief Ranger, Bro. L. O. Hooper, Financial Secretary, or to any other officers of the Court.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon cultivation of the land in each year during the term of three years:

(1) At least six months' residence years.
(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the said act may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres substantiated.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

LONDON, PARIS, NEW YORK AND EDMONTON

LOCAL

—Train on time.
 —The new Imperial hotel on Queens avenue will be opened Monday.
 —The regular meeting of the Edmonton city council will be held this evening.
 —Special trains will run from Strathcona to Edmonton and return on Labor day.
 —The annual report of the Department of Agriculture of the North-West Territories has been issued.
 —Jas. Hodgins, of Poplar Lake, has his wheat and barley practically cut and has two binders busy in his oats.
 —C. G. Gilmerson, Edmonton, has most of his wheat and barley cut, and has eighty acres of oats ready for the binder.
 —All lacrosse players are requested to turn out to practice tonight. A business meeting will be held afterwards.
 —Eleven rafts of timber for the Battleford bridge were shipped to Battleford yesterday. The water is falling in the river.
 —A. E. Goring's Grand Trunk Pacific survey party is camped at St. Albert, having returned from operating northwest of Edmonton.
 —There will be two pony races and a gentleman's road race on the Exhibition grounds at the Labor Day celebration Monday, September 5th.
 —Miss M. Gibbs has purchased the fruit and confectionery stock of E. C. Kuhnert, and has opened up in the latter's former stand on Jasper Ave. east.
 —The golf club will hold a grand tournament on Saturday and Monday. Luncheon will be served on Monday. The usual tea will be served on Saturday.
 —The Edmonton Chopin Society will hold its next practice on Tuesday, Aug. 30th (to-day) at 8 o'clock in Sanderson's Hall. A full attendance is requested.
 —Mr. Larue, of Stony Plain, has six acres of Red Fyfe wheat which he began to cut yesterday and which, it is estimated, will go fifty bushels to the acre.
 —Moose Jaw, Signal, August 21.—The government thermometer registered three and one-half degrees of frost on Saturday night, but there is no report of any damage to grain.
 —The funeral of the late Mrs. J. L. Abbot takes place tomorrow afternoon from the family residence on Tenth street, N. W. at two o'clock. The funeral service will be held in St. Joachim's church.
 —At their regular meeting tonight the city council will discuss plans for a reception to and the entertainment of Lord Minto, the Governor-General, on the occasion of his visit to Edmonton about September 9th.
 —Edmonton Operatic and Dramatic Society will hold a dance in the Philistie Pink Theatre on Friday evening, Sept. 9th. Music will be especially good. Tickets may be secured from the secretary or any of the committee.
 —John Ross & Co., are shipping five thousand bushels of oats to Pitt river for delivery to Contractor McArthur at Lloydminster. The oats are being loaded today and the steamer Beaver will tow the barges down.
 —The funeral of the late Mrs. Edwin Reid took place this afternoon at two o'clock from McIntosh and Campbell's undertaking establishment to the Edmonton cemetery. Mr. Reid had lately come to Edmonton to live.
 —A gang of men is at work altering the foundations for the new city office buildings to be erected just north of the present buildings on Fraser avenue. The building is being made six feet wider and more capacious in all respects.
 —John Kennedy was in Edmonton yesterday from Poplar Lake. He has finished cutting a large part of his barley and wheat, and he has three binders taking down his oats as fast as they can cut. There will be a magnificent yield from Poplar Lake crops.
 —Over one hundred and twenty-five new pupils started in the senior divisions of the Edmonton public schools yesterday. It has been found necessary to engage another teacher. This will bring the teaching staffs of the Edmonton public and high schools to sixteen.
 —The residents of the Alberta Hotel, has been luxuriously fitted up with large chairs and sofas. They are made with the best of oak finish and are leather upholstered. There are six large sofas and twelve chairs. These make the Alberta the finest in the west.
 —A. E. McKinstry, inspector of sales and collections for the International Harvester company for the whole of Canada, returned to the city yesterday from an extended drive through the district northeast from Edmonton. He was accompanied by Geo. Manabe of the Great West Implement company, Edmonton.

—The rain on Saturday has not been repeated to date, and the roads have dried up. The weather has been cloudy and warm. Grass has not ripened as rapidly as could be desired, although some progress is being made. Late crops are coming on well.

—The frame work of A. McDonald Company's new warehouse at the rear of their present warehouse is under construction, and work is being rapidly hurried forward on it. It is 100 by 30 feet, and will give a great deal of much needed room for the company's business.

—The old recreation rooms have been overhauled and refitted. A partition has been erected forming two stores and the painters are at work today preparatory to the stores being opened up. C. W. Mothers' views establishment will occupy one of the stores and P. Richard, fur cleaner, etc., the other.

—A splendid sample of club wheat grown on the farm of John Hess, Local, fifty miles north of Edmonton, was left at the Bulletin office yesterday. It measures about four feet in length and is quite ripe. Mr. Hess came into this district two years ago from Kansas and this year he has fifty acres of this wheat. The wheat is an early variety and is unusually hardy.

—A lacrosse match is announced elsewhere in this issue for Friday evening in Edmonton between the Strathcona and Edmonton teams. Strathcona team, while stating that they will probably be able to play Friday evening, have not yet given a decided answer to the proposal of the Edmonton team. A definite announcement regarding the match will appear in tomorrow's issue.

—Herald: The Calgary baseball team will not go to Red Deer on Monday, but will make the trip about Friday next. The Red Deer club has arranged a game with Fort Saskatchewan for the Kaysen cup and will go to the northern town to play on Tuesday. As a result of this the club has asked the Calgary team to delay their visit three or four days. This request has been acceded to.

—It is reported that contractor McArthur has ordered up a grading outfit to work at Vegreville at once. The work will be done across a piece of flat land while it is dry, so that it will not delay operations in the spring. Vegreville is about sixty miles a little south of due east of Edmonton. But the Canadian Northern line between this point and Edmonton will be upwards of one hundred miles in length, so it will have to round the north end of the Beaver Hills by way of Pt. St. Mary.

PERSONAL

Mayor Short took a trip down the line this morning.
 Percy Bibb was in Edmonton yesterday from the Point.
 A. T. Cushing left for Calgary this morning on business.
 R. W. Jones arrived in the city last night from Edmonton.
 Mr. Anderson, manager of the Union Bank, went down the line this morning.
 Wallace Williamson, of Toronto, is visiting with Williamson Bros. of this city.
 Mrs. F. W. Baird returned to Red Deer to-day after spending a few days in town.
 Jas. J. Reid, of Wabash, arrived in Edmonton yesterday, and will spend a week or ten days in the district.
 Mr. and Mrs. J. L. Studholme and Miss McBroom returned from Banff yesterday evening. They spent an enjoyable two weeks at this popular resort.
 Mr. Andrew Norquay returned to Winnipeg this morning from spending a few days in Edmonton. He came up to be present at the marriage of his brother, Alex. Norquay, of the Edmonton land and titles office.
 Mr. Arthur Mowat left for Calgary this morning to meet his wife and family who are coming from Ontario. They will reside on Eighth street west, south of Hardisty Avenue.

DEATHS

HOWDE.—At Edmonton on Tuesday August 28th, the infant son of Mr. and Mrs. N. Howde.
 READ.—At Edmonton, on Sunday, August 26th, Rachel L., wife of Mr. Edwin Read, aged 28 years, 9 months, 12 days.
 PROVOST.—At Edmonton, on Monday, August 27th, Laura, daughter of Mr. and Mrs. J. L. Provost.
 The funeral took place this (Tuesday) afternoon from the family residence, opposite the Maternity hospital, to St. Joachim's church, and thence to the Edmonton cemetery.
